PROFILE

Riaz here, and I'm a Google-certified UI/UX designer. I've been working in this industry for one year. I'm an expert in designing user-friendly, intuitive user interfaces for web and mobile applications. I'm passionate about utilizing design to improve user experience and address challenging issues. I've worked with a wide range of customers in several sectors, and I'm eager to apply my knowledge and experience to your project. I look forward to working with you and creating a successful, user-centered design for your product.

WORK EXPERIENCE

- Fiveer** 2024 - PRESENT
UI/UX designer
 - In a two-week sprint, I redesigned a cluttered dashboard as a UI/UX Designer. My tasks included in-depth user research, creating 43+ screens with Figma, and rigorous usability testing, culminating in a streamlined, visually coherent interface that significantly improved user experience and navigation efficiency
- Behace** 2024 - Present
UI/UX designer
 - In Two Weeks, I led a website redesign for an IT service firm, focusing on market research, wireframe creation, prototype development, and user testing. This collaborative effort with the development team resulted in a user-friendly website that improved customer engagement and enhanced the company's online presence
- Local market** 2024 - Present
Wordpress/Web Design
 - Designed and built Storeblitzr's e-commerce website using WordPress, creating a responsive and user-friendly experience that streamlines the buying process and boosts sales. I optimized the site for search engines to improve organic traffic and ensured a seamless experience for mobile users, allowing customers to browse and purchase products from any device.
